Narrative

Incident Description

I was shopping at the Hillsdale Shopping Center. I shopped at the Lego store where I took out my wallet. I then put it back in my shoulder bag. I window shopped for the remaining time and did not take out my wallet again. I walked to Trader Joe's (45 W Hillsdale Blvd, San Mateo, CA 94403) . I got some things and when I was about to pay, I realized I did not have my wallet in my bag. I checked in the mall and everywhere around but could not find it. It is possible that my bag zip would have been partially open for the wallet to fall out or someone to take it out. The wallet had all my important cards including Bank of America credit card and debit card, CFCU debit card, UHC health insurance card, EAD employment card, Cornell student card, Pakistani driving license and a number of other cards.
